President's Message
會長序言

I am pleased to present the results of our milestones over the past year as Chairman of Hong Kong Computer Society (HKCS). This year was indeed full of opportunities and challenges for HKCS. We have successfully organised several projects to assure the faithful achievement of our society's goals and objectives. Our Advisory Councils, Councils, Committee Members of various projects and secretariat were all united to support the growth and progress of the society making continuous efforts to contribute to the ICT industry.

我很高興以香港電腦學會會長的身份，向大家提呈本會在過去一年的工作成果。這一年對本人及香港電腦學會確實充滿機遇與挑戰，我們在資訊科技領域達成多個目標，完成大量活動項目。各資深顧問、理事會、各專項委員會和秘書處的同事們團結一心，共同支持學會的成長與進步。而我們的團隊透過不懈努力，為資訊及通訊科技業界做出貢獻。

Since taking office, I have always emphasised that as a people-oriented professional body, talent cultivation and professional development are our primary focus. Hong Kong continuously demands a growing number of talented ICT professionals. We actively seek ways to fulfil this need and cultivate talents in order to transform Hong Kong into a knowledge-based economy. In the past year, we have been working on various activities such as Inter-School Mobile App Design Competition, Shanghai-Hong Kong-Taiwan Youth IT Summer Camp, Robocon Hong Kong Contest and various seminars by special interest groups (SIG) in order to stimulate the interests of young talents from junior grade to university towards STEM and boost their chances of getting into IT industry.

我上任以來反覆強調，作為一個以人為本的專業學會，人才培育及專業發展是首要目標，重中之重。香港社會需要大量優秀的資訊及通訊科技專才，本會履行業界和社會的託付，積極培育人才，以推動香港轉型為知識型經濟體。在過去一年，我們透過不同的活動，例如中學校際手機應用程式設計大賽、滬港台青少年IT夏令營、全港大專生機械人大賽及各專題組(SIG)舉辦的講座等等，激發由初中至大學階段的學生對資訊科技相關課程的興趣，並提高他們投身IT行業的機會。

In March, we have successfully held the fifth IT Career Expo the only expo providing one-stop IT career information with job and continuing study opportunities for the public in Hong Kong. Different from other career fair which only focus on "Employment", we have also arranged a series of activities including exhibitions, seminars and sharing sessions covering "Employment", "Start-up" and "Continuing Education" serving an excellent platform for students who wish to learn more about ICT industry and for those who wish to change career path. I am proud to announce that we achieved a new record of 1,300 visitors visiting the expo which proves IT is the rising prominence of the current job market in Hong Kong.

此外，我們在今年三月舉辦了第五屆IT職業博覽。此乃全港唯一的一站式，為公眾提供就業及持續進修機會的IT行業資訊博覽，除「就業」外，活動同時涵蓋「創業」及「進修」兩大主題，提供展覽、講座、分享會等活動，為學生、正在求職及考慮職業轉型之人士提供實用資訊及即時與參展公司會面的平台。今年我們錄得逾1300參觀人次的新紀錄，可見資訊科技是近年就業市場的焦點。

Talent Cultivation
人才培育

" Hong Kong continuously demands a growing number of talented ICT professionals. We actively seek ways to fulfil this need and cultivate talents in order to transform Hong Kong into a knowledge-based economy.

我們積極培育人才，以推動香港轉型為知識型經濟體。"

To meet different needs of students, SMEs, and MMCs, HKCS has subdivided into five divisions and seven special interest groups. Four of the divisions are familiar to all of you, namely CIO Board, FACE Club, Youth Club and Innovation and Entrepreneurship Club (IE Club). The highlight is the newly formed iLEAP (IT LEadership Accelerator Platform) in March. We believe that there is no shortcut to creating professional IT executives in top management. To be a competent CIO, one must be equipped with well-rounded professional skills spanning technical knowledge, strong leadership expertise, business acumen, exemplary communication ability and appreciation of emerging technologies in order to prepare companies to address the challenges for digital transformation. We have high hopes for iLEAP to become a great success, by providing a unique professional and leadership development platform with mentorship, training and collaboration opportunities which best foster the career growth of IT executives and complement HKCS's commitment to IT development.

為配合不同類型的人群如學生、中小企業、大型企業的需要，香港電腦學會細分了更具針對性的五個分部及七個專題組。五個分部有為大家熟悉的資訊科技總監分部(CIO Board)、女士小組FACE Club、青年會及創新及創業會，在此不作詳述。需要一提的是今年三月剛成立的新分部，一個名為iLEAP(IT LEadership Accelerator Platform)的全新IT領袖培訓平台。我們相信成為IT高層並無捷徑。要成為一個稱職的資訊科技總監，必須具備全面的專業知識及技能，包括技術知識、卓越的領導才能、精闢的業務洞見、完善的溝通能力和能夠迅速掌握新興技術，為數碼轉型所帶來的挑戰作好準備。我們對iLEAP所能帶來的成功寄望甚高。作為一個提供獨有的專業及領袖發展平台，加上多名資訊總監分部的專業導師指導、培訓及協作的機會，iLEAP定能促進IT專才的事業發展，並能讓香港電腦學會更好地實踐對業界發展的承諾。

In addition to talent cultivation, we also strongly focus on professional development. In 2007, we established the Hong Kong Institute for IT Professional Certification (HKITPC), which is operated as an independent and non-profit organisation with the assistance of the Government. HKITPC aims to recognise the qualifications of IT professionals by launching a series of credentials and therefore helping foster the development of the IT industry. Furthermore, in the past year, the seven special interest groups of HKCS organised activities such as networking events, forums and seminars for different groups trying to bring them scalable professional development.

To enhance the professionalism of the IT industry, HKCS has participated and organised a number of competitions, such as the Hong Kong ICT Awards: Best Business Solution Award and the Asia Pacific ICT Alliance Award (APICTA). APICTA, which was known as the "Oscars of the ICT Arena", was held in Taipei last year with HKCS led Hong Kong team winning the highest number of awards besides the host.

如之前提及，除人才培育外，本會另一個重點是專業發展。我們於2007年成立了香港資訊科技專業認證局(The Hong Kong Institute for IT Professional Certification, HKITPC)，在政府資助下以非牟利形式獨立運作。該局頒佈的一系列專業認證證書，確立資訊科技界人才之專業資格，同時亦獲業界廣泛認可。此外，本會的七個專題組，針對不同年齡層和背景的人群，籌辦協助其專業發展之活動，例如交流會、論壇、研討會等。

為提升業界專業水平，本會參與並籌辦多項比賽，例如本地業界盛事「香港資訊及通訊科技獎：最佳商業方案獎」，及亞太區大獎「亞太資訊及通訊科技大獎」(APICTA)。亞太資訊及通訊科技大獎去年於台北舉行，本會帶領的香港團隊是除東道主外，獲獎最多的參賽區。

Professional Development
專業發展

" Our seven SIGs organised various activities trying to bring members scalable professional development.

本會的七個專題組，針對不同年齡層和背景的人群，籌辦不同活動協助會員專業發展。"

Hong Kong Computer Society will continue on enhancing the international prominence of Hong Kong ICT industry by more collaborate with international organisation as well as cross-industry. We have signed memorandum of understandings with three organisations last year, namely the Zhuhai Association of Outsourcing Service, Taiwan CIO Association and the Hong Kong Physiotherapists' Union.

Moreover, we would like to make more contributions to the industry and society. Last June, we have established the Hong Kong Computer Society Foundation and were honoured to have Dr. C.H. Leung as the patron of the Foundation. On the Mother's Day just passed, the Foundation and FACE Club organised a charity walk raising funds to help underprivileged girls engage in technology-related activities. In the pipeline, we will have a more diversified plan to serve the community.

HKCS conferred the honorary title of Distinguished Fellow upon Prof. Roland Chin, President and Vice-Chancellor of Hong Kong Baptist University, in recognition of his significant and lasting contribution to education, research and the advancement of the ICT industry. We hope to encourage more people with such brilliant ideals to further contribute to the society.

I would like to express my sincere gratitude to many of our partners and sponsors for their long-standing support to HKCS.

未來，香港電腦學會繼續將策略集中於擴大和加深國際跨區域甚至跨業界之交流，通過與不同範疇的專業機構合作，提高香港資訊及通訊科技業的地位。本會去年與3家機構簽署了合作備忘錄，包括珠海市服務外包行業協會、台灣資訊長協進會及香港物理治療師聯合會。

與此同時，本會期望能為業界及社會作出更多貢獻，去年6月，我們成立了香港電腦學會基金會，並很榮幸邀請到梁智鴻醫生作為基金會的贊助人。剛在5月母親節當天，基金會與FACE　Club籌辦了一個慈善步行，籌募善款培育年輕的女性資訊科技人才。接下來，我們將有更多元化的計劃服務社會。

本會去年授予浸會大學副校長錢大康教授院士名銜，以表揚錢教授於教育、研究及推動資訊及通訊科技業發展的傑出成就及貢獻，並希望藉此帶動更多有志之士為業界出力。

在此，我誠摯感謝多個機構長期以來對香港電腦學會的支持與合作。

I am honoured to work with you to create remarkable achievements. With all of your support, I look forward to continue another fruitful year.

未來，我們將更有效地運用現有的資源與網絡，促進會員在資訊科技業界的發展，發揮會員的價值，並加深我們在政府、業界中扮演的業界發展及轉變仲介和推動的角色。通過鼓勵創新與發展，讓香港的科技行業在世界舞台上取得更高成就，綻放奪目光彩。

香港電腦學會是一個主要以個人會員組成，為會員服務的組織，與其他主要由企業推動的商業協會極為不同，香港電腦學會的各位理事會成員、活動籌委會，以及各位會員都是志願者，大家抱著服務業界、提昇專業水平及地位的願望和熱誠，無私付出，本人希望藉此機會向學會表現出色的全體人員致以由衷謝意。有賴於他們不懈的支持，我們方可保持在行業的專業領導地位，令香港電腦學會得以成為具有生命力的團體，並與各範疇邁步向前，促進本地和地區內資訊和通訊科技界的發展。本人很榮幸能夠與您們一起創造卓越成就，並熱切期待來年再度創造豐碩成功。

International IT Fest - Girls for Tech Competition
國際IT匯: Girls for Tech 比賽

ICT is a traditionally male-dominated industry. The number of women who adopt ICT as a career is disproportional to the demographics. Despite making up about 50% of the population, women represent only 20% of the ICT workforce in Hong Kong, leading to a traditional perception that female is "less technical".

The "Girls for Tech" challenge was an opportunity for female secondary school students to prove to themselves and the world that – Girls can be Tech!

22 teams joined the event and showed their VR video with amazing presentation during the competition, 80 girls done a great job in this event!

一直以來，ICT是一個由男性主導的行業。 以ICT作為職業的女性人數與人口性別分佈不成比例，雖然女性佔了大約50%的人口，香港的ICT女性從業員卻只有20%，導致傳統觀念上大眾一般認為女性在科技技術方面較男性差。

Girls for Tech比賽是一個機會，讓新生代的女中學生向自己和世界證明 – 女性也可以Tech的!

是次活動共有22支隊伍參與，並在比賽中表示了她們製作的VR視頻，80位女生都表現非常出色!
