Introduction of Organiser 主辦機構簡介

The Hong Kong Computer Society (HKCS) is a well-established non-profit organisation that has been striving to improve and develop Hong Kong's Information and Communication Technology (ICT) industry since its founding in 1970.

HKCS is the first officially recognised professional association for the ICT industry in Hong Kong, dedicated to the promotion of the highest professional standards for the industry. Members hail from a broad spectrum of Hong Kong's ICT industry, from corporations to like-minded individuals, all coming together to raise the profile of the industry.

During its over 40 years' history, HKCS members have come to form the core of a wide and influential network throughout the whole spectrum of Hong Kong services and other industries. The Society offers a chance for Hong Kong's communities to exchange ideas and to carry out a dialogue with the Government regarding ICT and its impact to the society. Being a highly active association, HKCS is regularly organising many activities to help promote ICT in Hong Kong, including lectures, discussions, seminars, and open forums on subjects related to ICT.

Background 背景

The Hong Kong ICT Awards aims at recognising and promoting outstanding information and communications technology (ICT) inventions and applications, thereby encouraging innovation and excellence among Hong Kong's ICT talents and enterprises in their constant pursuit of creative and better solutions to meet business and social needs.

The Hong Kong ICT Awards was established in 2006 with the collaborative efforts of the industry, academia and the Government. Steered by the Office of the Government Chief Information Officer, and organised by Hong Kong ICT industry associations and professional bodies, the Awards aims at building a locally espoused and internationally acclaimed brand of ICT awards.

There are eight categories under the Hong Kong ICT Awards 2016. There will be one Grand Award in each category, and an "Award of the Year" will be selected from the eight Grand Awards by the Grand Judging Panel.

香港資訊及通訊科技獎旨在表揚及推廣優秀的資訊及通訊科技發明和應用，以鼓勵香港業界精英和企業不斷追求創新和卓越，謀求更佳和更具創意的方案，滿足企業的營運需要，造福社會。

通過業界、學術界和政府的共同努力，香港資訊及通訊科技獎於二零零六年成立。香港資訊及通訊科技獎由政府資訊科技總監辦公室策動，並由香港業界組織及專業團體主辦，目的是為香港建立一個廣受香港社會愛戴、並獲國際認同的資訊及通訊科技專業獎項。

2016香港資訊及通訊科技獎設有八個類別的獎項。每個類別均設有一個大獎，而最終評審委員會會再從所有大獎中甄選出「全年大獎」。

Objective 目的

The Hong Kong ICT Awards 2016: Best Business Solution Award for four major purposes:

- 1) The application of Information Technology is essential to improve the operating efficiency of Hong Kong's industries, services, product qualities and overall competitiveness. The awards promote greater use of ICT in the community, in turn helping to create a culture of ICT usage in business as well as in daily life.
- 2) Hong Kong already has all the basic ingredients for a successful ICT industry able to meet not only the domestic needs of Hong Kong but also those of regional and international markets. The awards encourage original software development and promote improved creativity in the exploitation of technology in the local ICT industry.
- 3) In the current age of mobility, smart devices, social media and Internet, E-Commerce, is a powerful and productive channel for business enhancement and attracting new customers. Innovation applications and products in e-Commerce developed and operated by our enterprises are recognized with a specific stream of this Award category.
- 4) The backbone of our economy is our SMEs, of which the adoption of ICT is crucial for its global reach in marketing strategy and business expansion. In each of the three proposed streams of Award, an Outstanding Award (SME) is presented to the most innovative application deployed, or product developed by an SME.

「2016香港資訊及通訊科技獎：最佳商業方案獎」具有四個主要目的：

- 2) 香港在發展資訊及通訊科技方面，已經具備成功的基本條件，既滿足本地需求，亦為海外市場提供動力。最佳商業方案獎鼓勵更多具創意的軟件發展，以及提升本地資訊及通訊科技業開發科技的創意。
- 3) 現今的流動電話通訊、智能裝置、社交媒體、互聯網和電子商務，是非常有效的渠道，有助加強經商及吸引客源。最佳商業方案獎設有特定的獎項，頒發給由公司設計和操作的創新應用作品和電子商務產品。
