

Mr Aaron Tan Dani

**Chairman of IASA Asia Pacific, President of Enterprise Architecture Chapter,
Singapore Computer Society and Chief Architect of ATD Solution**

Aaron Tan Dani is a visionary leader and passionate champion of Digital Enterprise Architecture, with over three decades of experience helping organisations across the Asia-Pacific region turn technology into real business value. As Chairman of IASA Asia Pacific and President of the Singapore Computer Society EA Chapter, Aaron actively drives the adoption of Enterprise Architecture at both corporate and national levels. He co-authored the Business Technology Architecture Body of Knowledge (BTABoK) and played a key role in defining the world's first 256 IT Architect skill sets. Known for his engaging style, Aaron has delivered foundational EA courses across Asia since 2009, inspiring architects in Malaysia, Singapore, Thailand, Hong Kong, Macau, Japan, and Indonesia to become confident leaders in digital transformation.

Aaron holds a broad range of certifications including TOGAF® Applied Practitioner, TOGAF® Business Architecture, ArchiMate®, COBIT®, PMP®, and IASA® CITA-F® and CITA-A®. He earned his Bachelor of Computer and Mathematical Sciences, Business and IT from the University of Western Australia and Master of Technology from the National University of Singapore. Recognised as a Fellow of the Singapore Computer Society, Aaron also supports Malaysia's public sector as an expert in their Community of Practice Enterprise Architecture (COPEA). Driven by a genuine passion for bridging business and technology, Aaron's mission is to empower the next generation of architects to shape the future.
