

Project Manager (Information Security Management/IT Security/Security Risk Assessment and Audit)

Responsibilities:

Contract to a government department and responsible for Information Security Compliance Monitoring and Audit for All Bureaux and Departments.

- Provide government-wide information security support and services;
- Lead an audit team to assess security compliance of departments with Government's security requirements (including conducting interview, reviewing security processes and controls, etc.);
- Monitor the audit schedule to ensure the activities are completed on schedule;
- Perform quality assurance on project deliverables (including audit findings, audit reports, etc.);
- Ensure that the departments are audited under consistent security standards;
- Analyse results of security audits of all the departments; and
- Summarise the experience and propose improvement to the compliance audit exercise.

Requirements:

- Degree/Higher Diploma holder in Computer Science or equivalent;
- Minimum 8 years of IT working experience;
- Minimum 2 years experiences as Project Manager or similar capacity;
- Solid experience in project management;
- Solid experience in supervising a team of two members or more;
- Solid experience in performing security audit as an auditor independently in public or private sector (preferable in government departments or financial institutions);
- Knowledge on international security standards and industry security best practices;
- Good command of both written and spoken English; and
- Certification of CISSP, CISM, CISA or ISO/IEC 27001 Lead Auditor.

Interested parties please send detailed resume with present/expected salary to HR Department.
