We are seeking a Frontend Web Developer to work on responsive interfaces for websites and web apps. The interfaces will range from basic one page web pages to portals that include data visualizations.

Responsibilities

- Develop, test, deploy, and maintain new projects according to provided UI/UX
- Provide feedback on UI/UX for delivering a better product
- Work independently to meet tight project deadlines

Requirements

- Diploma or above in Computer Science or related disciplines
- At least 1 year relevant experience in responsive web design using HTML, CSS, JavaScript
- Experience using a frontend framework (Bootstrap, PureCSS), and Git version control
- **Familiarity with Angular + Typescript or ReactJS or React Native, Node.js MongoDB or other database experience is bonus**
- Good understanding of object-oriented programming concepts
- Willing to learn and work with the latest development tools and processes
- Good interpersonal and communication skill, able to cooperate with different background and culture people
- Good command of spoken and written English and Chinese

Benefits

- 5-day work week
- Medical insurance
- Discretionary bonus

Work Location: Central

Attractive remuneration and fringe benefits will be offered to the right candidates. Interested parties, please email your resume with current & expected salary to hr@epicurean.com.hk

We are an equal opportunity employer. All applications received will be used strictly for selection purposes only. Your application may also be considered for other suitable positions within the Company. Unsuccessful applications will be destroyed after 6 months.
