Professional Competence and Integrity are the Foundations on which an Information Society is built

President's Message
會長序言

Introduction

One of the best things about working in Information and Communication Technology (ICT) is that things are fast changing and full of vibration. The pace of innovation brings forth new technologies, opportunities and challenges. Changes are almost daily and last year has been no exception.

Hong Kong has seen a stream of new developments which promise to improve the quality of life as well as our commercial environment. The business world is designed, implemented and supported for the most part by the ICT professionals in general and the members of the Hong Kong Computer Society (HKCS) in particular.

Taking digital TV for example, since its launch at the end of 2007, it heralds a new development for broadcasting and a brand new audio-visual experience. In addition to bringing

介紹

資訊科技瞬息萬變，機遇處處，挑戰無限。資訊及通訊科技的發展，不但提升了人類的生活質素，同時亦令香港營商環境如虎添翼。本人謹藉此機會，與各位分享香港電腦學會和資訊及通訊科技界在過去一年內，為業界曾作出的貢獻及所獲得的輝煌成績。

於二零零七年年底，數碼電視正式啟播，為香港市民帶來前所未有的嶄新視聽體驗。數碼電視廣播除了為市民提供更多元化的免費電視頻道及高清視覺效果外，亦為數碼傳媒業及其他相關行業建立了一個無限的發揮空間。

數碼電視的六個全新發射站已陸續啟用，期望可於二零零九年八月達至七成五的覆蓋率。要成功達到目標，精良的技術及優秀的資訊科技業專才地位同樣舉足輕重，相信日後資訊

會長序言

viewers a wide array of free programme choices and better reception, it also opens up a creative new platform for digital multimedia services and related businesses.

By implementing the six new transmission stations to reach the target of providing 75% coverage by August 2009, this new technology will require considerable technical expertise – much of it new knowledge. So it will exploit the platform's full creativity and economic potential.

It is the same story for other developments. The biggest challenge is not technical – it is finding people and equipping them with the skills that the existing and new technology base needs in order to progress. That is obviously an area where HKCS can play a role.

As you might imagine, the past 12 months have been among the most positive and productive in the long history of the Hong Kong Computer Society. While I am proud of the progress in this fourth year as President, the outstanding achievements of last year have really been made possible through the invaluable contributions of HKCS Council and members.

Throughout the years, the HKCS has aimed to promote sustained development of the ICT industry in Hong Kong by focusing on three key areas.

Members: Upholding and enhancing the professional capabilities of members through quality and well organised professional development programmes.

Industry: Promoting the adoption of ICT and ensuring that businesses exploit it appropriately.

Community: Serving the community at large through a variety of community projects.

It is with the deepest admiration and respect for the members of the Hong Kong ICT industry that I present a brief look back at the achievements of HKCS this year and highlight some of the challenges we face in the future as we continue promoting and developing our local industry.

科技業專才的需求必定與日俱增。本人深信香港電腦學會定可在鞏固資訊科技業人力資源方面，為業界作出貢獻。

過去的一年，學會盡享豐碩成果。本人十分榮幸能夠見証學會成功，實在與有榮焉。本人謹在此向各理事會成員及眾會員致以衷心謝意，感謝他們一直以來對學會的支持及貢獻。

學會一直秉承以推動資訊及通訊科技業的持續發展為宗旨，當中主要有三大範疇。在會員方面，學會透過完善嚴謹的專業發展計劃，提升會員的專業知識；在業界方面，學會積極向工商業界推廣正確的資訊及通訊科技之應用；在社會服務方面，學會亦透過參與多元化的社會活動，回饋社會。

於過去一年，在資訊科技業界及學會之共同努力下，學會在各方面的成績均有目共睹。在回顧過去之同時，學會亦展望將來，迎接未來的挑戰，為推動香港工商業發展作出貢獻。

Professional Development

The promotion of these key focus areas during 2007-2008 has provided significant opportunities and benefits for our members. The HKCS looks to enable Hong Kong to cultivate superior strength in human capital in order to further develop the ICT industry and leverage ICT to foster a better and more competitive economy. The year has seen the continued expansion of the Certified Professional of IT programme (CPIT).

The CPIT provides Hong Kong's ICT Professionals with unprecedented opportunities to hone their skills and focus their talents in ways which will benefit the Hong Kong ICT industry both now and in the future. The scheme works alongside the qualification framework developed by the Education and Manpower Bureau (EMB). The HKCS has also been proud to invite other ICT organisations in Hong Kong to become 'shareholders' in the Hong Kong Institute for IT Professional Certification (HKITPC), guaranteeing a broad representation of the ICT industry in Hong Kong.

After the completion of the pilot programme and with the support and funding from the Office of the Government Chief Information Officer (OGCIO), the CPIT programme was officially commenced in 2007 with the first series of professional certification workshops and the establishment of the HKITPC.

The HKCS has been overwhelmed by the positive reception this initiative has received from the ICT industry in Hong Kong. The CPIT programme is a golden opportunity for relevant ICT professionals based in Hong Kong to gain professional recognition for their skills and talents. It is a way of ensuring that ICT vendors and user organisations employ staff with relevant skill-sets for specific roles as well as providing a clear road-map for ICT professionals to follow as they advance through their careers.

As a result of these successes and with additional funding support from the OGCIO, HKCS is developing three new certification titles planned for launch in the near future; Associate Project Manager, Business Analyst (Information Systems) and Information Security Professional. They have been designed for the second echelon of ICT professionals, as a stepping stone towards the further advancement of their ICT careers.

專業發展

學會一直不遺餘力推廣學會三大目標範疇。學會期望能盡一己之力，為香港培育資訊科技人才，鞏固業界發展，使香港經濟邁向更具競爭力之時代。於二零零七年，學會籌備已久的Certified Professional of IT (CPIT)終於正式面世。對於資訊科技專業人員來說，專業技能獲得正式認証，CPIT實是一個不可多得的黃金機會。

CPIT認証計劃符合教育統籌局設立的專業資歷架構標準，為資訊及通訊科技業界的專業技能培訓提供了一個清晰明確的指引，並確保其能夠配合業界的發展，增強業界競爭力，學會亦十分榮幸，成功邀請了香港其他資訊及通訊科技業團體成為「香港資訊科技專業人員認證」計劃的合作夥伴，確保計劃廣泛的認受性及代表性。

本年度學會透過政府資訊科技總監辦公室及「香港資訊科技專業人員認證」計劃基金會的支持，CPIT第一期專業認証終於誕生，反應空前理想，成績令人鼓舞。CPIT為資訊及通訊科技業界專業技能的發展，呈現更清晰明確的指引，確保其專業技能之培訓符合特殊專業要求，並能為業界聘請專業人才時，提供完善嚴謹的指標。本人深信，CPIT對未來資訊科技業的蓬勃發展，將有著不可或缺的重要性。

隨著CPIT第一期認証的成功及政府資訊科技總監辦公室的資助，學會正密鑼緊鼓，籌備另外三項的認証，包括副項目經理、業務分析員及資訊保安主任。學會相信，這三項認証資格，將為有意於資訊科技業發展更上一層樓的專才，提供完善的晉升指標。

另一方面，學會亦展開了中國內地業界與香港業界之間的互証、互認計劃。學會十分榮幸，獲得中華人民共和國資訊產業部的支持，學會定必繼續努力，朝著資訊科技業專業技能中港互認的目標邁進。

President's Message
會長序言

Another facet of the CPIT programme in 2007 has been the commencement of a cross-certification and mutual recognition programme between Mainland China and Hong Kong. HKCS has received positive feedback from the Chinese Ministry of Information Industry and will continue to pursue this worthwhile and mutually beneficial objective.

Industry Development

The HKCS also looks to promote the appropriate use of ICT throughout the business community and in households as well as in the health and education sectors. Combined with the strong supply of local ICT talent, we hope to see continued prosperity in the Hong Kong ICT industry. The HKCS sees the organisation of and participation in regionally respected ICT events as a key to the betterment Hong Kong's ICT industry. A number of successful events held throughout 2007-2008 provided local ICT enterprises with opportunities to showcase their skills both in the region and around the globe.

The 30th annual Hong Kong International Computer Conference (HKICC2007) provided an amazing opportunity for the Hong Kong ICT industry to display its most innovative aspects to a world audience. HKICC2007 was unquestionably one of the most productive HKCS events in history, attracting in excess of 450 delegates from the region and all over the world.

As the founding organisation of the Hong Kong ICT Awards, the HKCS was honoured to be selected by the government as the leading organiser for the "Best Business Award" in 2007. We were proud that the number and level of the award and that the quality of the entries was at an all time high.

We continued to exceed ourselves by participating at international competitions such as the Asia Pacific ICT Awards (APICTA). The Award programme was held in Singapore during November 2007 and with the winning of a total of three grand prizes and two merits, it allowed Hong Kong to tie for first place in the overall standings of regional ICT industries. APICTA was undoubtedly a phenomenal success for the Hong Kong based entrants.

A great step forward for the Hong Kong ICT industry in 2007 was the establishment of the Chief Information Officer (CIO) Board. Formed in June 2007, this exclusive group is made up of CIOs from some of Hong Kong's biggest ICT enterprises. This forum is geared to provide not only support for other members, but also to groom Hong Kong's future CIOs.

業界發展

學會推動資訊科技的正確應用，由工商界乃至家庭，以至醫療界及教育界的應用，均不遺餘力。結合業界優秀的人力資源，學會期待香港資訊科技業能夠繼續蓬勃發展。另一方面，學會相信，透過舉辦及參與資訊及通訊科技業的活動，香港業界定能獲益良多。有見及此，學會於二零零七年至二零零八年度舉辦一連串的資訊科技業界盛事，讓本地業界得以向亞洲，以至國際，展示業界的專業技能，機會實在不可多得。

「第三十屆香港國際電腦會議」就是本年度其中一大業界盛事。香港資訊科技業界可藉著這個難能可貴的機會，向國際展示業界嶄新的科技產品。是次會議雲集了超過四百五十位來自世界各地的業界代表撥冗出席，可說是學會本年度最盛大的活動。

作為「香港資訊及通訊科技大獎」的創辦機構，學會十分榮幸獲香港特區政府選為二零零七年「最佳商業系統獎」的籌委。學會有幸參與大獎籌委工作，見証參賽者的無限潛能，實在與有榮焉。

「亞太資訊及通訊科技大獎」亦於二零零七年十一月於新加坡舉行。香港區的參賽者成績斐然，共奪得三項參選組別大獎及兩項優異獎項。是次比賽中，香港業界表現出類拔萃，與亞太區資訊及通訊科技業發展並駕齊驅，成績令人振奮。

資訊總監分部亦於二零零七年六月正式成立，是為資訊及通訊科技業發展的其中一個重要里程碑。本分部是由本港著名公司擔任資訊科技總監或主管等要職之創會成員組成，除了為會員提供專業上的協助外，亦同時致力培育具有成為資訊總監潛質的人才，這些均有助香港資訊及通訊科技業的長遠發展。

Serving the Community

As ICT professionals and residents of Hong Kong, we have a responsibility to serve the community through our knowledge and expertise. The HKCS is looking to grow the next generation of ICT professionals by enticing students to become involved in the ICT industry. That means either starting careers in the ICT industry or getting a head start in the use of ICT in their daily lives.

The HKCS is also proud to be involved in community projects which are related to the ICT industry as well as the community at large. For example, the Shanghai-Hong Kong Youth IT Summer Camp 2007 proved to be an excellent platform for young people from Hong Kong and the Mainland to exchange ideas and share experiences in the use of ICT. The theme "My Expectation for the Beijing Olympics" coincided with the recently held ICT Sports & Fun Day as China prepares to host the forthcoming Olympic Games in August 2008. The HKCS organised the Sports & Fun Day to encourage members of the ICT community to get involved in the Olympic spirit. This event was an enormous success, with nearly 5,000 ICT industry professionals and their families taking part in the day's activities.

The HKCS was deeply touched by the ICT industry's support for the 'Snow Disaster' charity drive over the Lunar New Year period in early 2008. This disaster had only a minor impact on Hong Kong's ICT industry; our members raised an impressive amount of money, which will be used to help rebuild the lives of our Mainland brethren. This extraordinary effort has proven the positive impact the HKCS can have, not only in the ICT industry, but in the community at large in Hong Kong and the rest of the region.

Focus on the future

2008 is set to be another highly successful year for the HKCS and the Hong Kong ICT industry. There are great opportunities for continued development in all facets of the industry and expansion into new areas. The HKCS looks forward to its continued partnership with the HKSAR Government on its ICT policy formulation and with the many professionals in Hong Kong who now consider ICT to be business critical.

造福社會

學會一直致力以業界的專業技能及影響力，造福社會。學會期望透過帶領青少年認識資訊及通訊科技，讓他們能夠在日常生活中接觸資訊科技的應用，從而培育業界的未來棟樑，為業界作出貢獻。

學會亦十分榮幸，舉辦「二零零七年滬港青IT青少年夏令營」，為中港青少年提供了一個交流切磋資訊科技的平台。資訊科技營以「我對北京奧運的期望」為主題，讓學生感受到祖國舉辦奧運的熾熱氣氛。此外學會亦透過「資訊科技運動同樂日」，讓業界熱切感受奧運精神。運動同樂日當日獲接近五千名業界專才及家屬參與，成績令人欣喜。

於二零零八年農曆期間發生的雪災，香港雖然影響甚微，但學會亦感同身受。學會舉辦的雪災籌款活動，得到業界的鼎力支持，籌得巨額善款用作協助中國內地同胞重建家園。是次籌款活動獲得空前成功，見証了學會不但在資訊科技業發展發揮影響力，亦同時關顧香港乃至鄰近地區的社會問題，有幸造福社會，學會實在感到十分榮幸。

President's Message
會長序言

Mainland China will continue to actively leverage Hong Kong's human ICT capital. The steps HKCS is taking to promote mutual recognition of ICT qualifications will undoubtedly lead to greater numbers of Hong Kong ICT professionals spending an increasing amount of time working in the Mainland. Similarly, with the establishment of a number of key ICT related training facilities in the Pearl River Delta such as the co-operation and exchange centre in Zhuhai, Mainland and Hong Kong, co-operation in ICT will continue to gain momentum as it has done over the past decade.

Through the HKCS's work to develop Hong Kong's ICT industry, the demand for ICT professionals will continue to rise. Non-commercial use of ICT will also continue to grow significantly with the rising popularity of digital media, internet connectivity and Web 2.0.

In fostering the synergies among different technologies, the HKCS's Special Interest Divisions (SIDs) will continue to promote a number of key ICT areas. Apart from the well developed E-Business SID (EBSID), Emerging Technologies SID (ETSID), Information Security SID (ISSID) and Quality Management SID (QMSID), the HKCS will also explore more adoption of new technologies in the realms of Health IT SID (HITSID) and Business Intelligence SID (BISID).

The HKCS will continue to grow in order to meet these new challenges, through continuing to organise and promote the Hong Kong ICT industry, striving for a high level of professionalism from its human capital and also continuing its work, both inside and outside the ICT community.

Final thoughts

Finally, I would like to extend my most sincere thanks to all members of the Hong Kong ICT industry and especially to members of the Hong Kong Computer Society. It is with their support that the HKCS has accumulated a great number of successes over the past 12 months and will continue to do so in the future.

It is an exciting time for the ICT industry in Hong Kong, with new developments and countless opportunities for well-planned and executed projects as well as great challenges for those willing to face them. I sincerely wish all HKCS members great prosperity in the coming year and in the future.

展望未來

在二零零八年，學會和資訊及通訊科技業將繼往開來，大放異彩。業界的發展空間無限，挑戰處處，學會期望繼續與香港特區政府通力合作，並與重視資訊科技發展的專家攜手，就有關資訊及通訊科技發展政策的制定提出意見，為業界尋找發展機遇。

中國內地與香港經濟關係日趨緊密，結合資訊及通訊科技業專業人員資歷中港互認計劃，業界專才往返內地工作的情況將會更加普及。位於珠江三角洲的資訊科技培訓設施，如珠海的合作交流中心的成立，將會進一步加強中港兩地在資訊及通訊科技方面的合作，帶領業界發展走上劃時代的新一頁。

學會一直致力推動業界發展，社會對資訊及通訊科技業界人力資源的需求與日俱增。資訊及通訊科技的非商業應用，亦必定隨著數碼媒體、互聯網及Web 2.0的廣泛應用而日趨普及。為進一步融合資訊科技在不同範疇的應用，學會的專題分部，包括電子商貿分部、新興技術研討分部、資訊保安部、質量管理分部、醫療信息科技分部及商務智能分部，將會繼續推廣資訊及通訊科技重要領域的發展，進一步探討嶄新科技的應用。

學會除了致力推廣香港資訊及通訊科技業的發展及提升業界專業質素外，亦期望能夠發揮業界在社會上的影響力，回饋社會。新一年依始，學會亦將精益求精，力求上進，面對未來更多的挑戰。

最後，本人希望謹此向香港資訊及通訊科技業界及香港電腦學會仝人致意，感謝他們在過去一年為學會發展盡心盡力，香港資訊及通訊科技業急速發展成長，業界將會面對未來更多的挑戰。學會正處於令人振奮的時代，身為香港電腦學會會長，本人謹祝學會會員前程錦繡！

• Membership 會員事務

Introduction

Year 2007-2008 was a healthy year for membership of the HKCS with a steady growth of more than 200 new members (12 corporate members and 207 individual members). We had a full programme of over 60 events held during the year and we would like to express our sincere gratitude and appreciation to all members who have attended our events and those who contributed a great deal in arranging the activities.

To improve the benefits & services for our members, the Society, worked in conjunction with Dah Sing Bank to launch the new "Dah Sing Hong Kong Computer Society VISA Card" in July 2007. The card combines the functions of HKCS membership and that of a credit card, to bring forth a prestigious identity and a wide range of privilege offers for HKCS members. A special welcome gift, an i-Companion Hi-Fi, was also offered to our members many of whom have successfully applied for the card.

As a way to identify the prestigious status HKCS membership, the Society was proud to introduce the HKCS Badges during the Networking Hours in September 2007. The badges are an important signature accessory to many of our members as they signify their membership. Each badge is engraved with an exclusive serial number for each "Distinguished Fellow", "Fellow", "Full Member" and "Associate Member." Again, these badges were positively received by our members and we encourage all members to wear the badges at all Society's events. Members are reminded to collect their badges from the office if they have not already done so.

簡介

學會年內在新增會員方面成績相當理想，其中包括十二家企業會員與二百零七位個人會員。學會全年共舉行六十多項活動。在此我們謹向所有支持學會的會員及竭力為我們安排年度活動的組織機構致以萬分謝意。

學會一直致力為會員爭取更多優惠。於二零零七年七月，學會特別與大生銀行合作推出「大生銀行暨香港電腦學會信用咭計劃」，信用咭除代表香港電腦學會會員身份外，亦同時兼具信用咭簽賬功能，更顯會員尊貴身份。計劃更獻上i-Companion Hi-Fi為特別迎新禮品，以酬謝會員支持。

為顯會員尊貴身份，學會於二零零七年九月推出一系列香港電腦學會徽章。每一個「院士」，「資深會員」，「正式會員」及 「聯繫會員」的徽章更特別刻鑄有獨一無二之序號。作為香港電腦學會會員，擁有學會徽章別具象徵意義。學會誠意邀請會員佩戴徽章出席學會活動。仍未領取徽章的會員請親臨香港電腦學會之辦公室領取這珍貴獨特的紀念飾物。

一直以來，學會致力與舊有會員重新建立聯繫。有鑑及此，學會會長李惠光先生特別於二零零七年十二月向舊有會員寄出私人邀請函，邀請他們重新加入學會。透過是次計劃，舊有會員除可即時重新使用會籍外，更可享一連串的精彩優惠。自計劃推出以來，反應熱烈，迄今已有超過一百三十位舊有會員透過計劃重新加入學會。

• Membership 會員事務

It has always been the Society's priority to re-establish contact with our former HKCS members who have lost touch with HKCS. It is under this consideration that our President, Mr. Sunny Lee sent out a personalised letter in December 2007 to invite them to join the "Home Return: Membership Re-Activation Programme". This programme offers a unique opportunity where former members can re-activate their membership immediately and are entitled to participate in some special offers. Since the launch of this programme, the response has been overwhelming with a "home-return" of over 130 former members.

YouthClub@HKCS has always been a good resource for grooming and attracting new blood to the Society. We worked in co-operation with the IS Societies of major universities and institutions. A series of career talks were organised during the year at the Hong Kong Institute of Vocational Education (IVE) to promote the Society to the students. With the help of the Council Members and SID Chairpersons, the career talks were very successful and we successfully recruited more than 120 student members. As a result of the Council's decision to offer free membership fees for students, it is expected that student membership will continue to surge in the coming years. We will conduct more "roadshows" and presentations on the campuses of various tertiary education institutions. Furthermore, the committee hosted several site visits in 2007, for example, we organised a site visit to Immigration Department to see the HKID Card Production Machine and the eChannel kiosk. We also jointly organised a career seminar with the Computing Alumni Association (CAA) of the Hong Kong Polytechnic University to help students to plan their career paths in IT, develop interviewing skills and set up new businesses.

一直以來，香港電腦學會「青年屬會」是吸納新血的重要途徑。有見及此，學會特別與各大專上學院之資訊科技學會合作舉辦活動，本年度學會亦於香港專業教育學院舉辦一連串的職業輔導講座，並向學生介紹學會。在理事會成員及各專題分部主席協助及支持下，講座非常成功，學會亦吸納了超過一百二十位學生會員，成績令人振奮。

由於學會豁免學生會員之會費，預期未來學生會員的人數將會與日俱增。於未來一年，學會將會於專上院校舉辦更多簡介會，使更多學生認識學會。另外，理事會在過去一年，亦舉辦了多次專業參觀活動，例如參觀入境事務處，了解香港身份証製作過程及 e 道運作等，均使會員對現今資訊科技的應用有更深切的了解。學會亦與香港理工大學電子計算學系舊生會合作，舉辦職業輔導講座，幫助學生計劃解決有關資訊科技業就業問題。

HKCS Spring Dinner & Dance 2007
二零零七年香港電腦學會春節晚會

The HKCS Spring Dinner & Dance 2007 was held at the Golden Dynasty of Macau Jockey Club on the 16th of March 2007 with over 260 ICT professionals including honourable guests, representatives from friendly associations, HKCS Council Members, Distinguished Fellows and HKCS members gathered together to welcome the Year of the Pig.

HKCS President Mr. Sunny Lee and Vice President Mr. Raymond Chu kicked off the evening's proceedings with a welcome to all the guests. This was followed by an outstanding dance performance and an exceptional meal. Guests were also entertained by a number of surprise singing performances and a live band while they enjoyed their meals.

This event was organised to give attendees a great opportunity to meet and mingle with other ICT professionals in a friendly, jovial atmosphere. The positive feedback we received proved that this event was undoubtedly one of the most valuable social events on the 2007 HKCS calendar.

We would like to extend our sincere thanks to the organising committee and all the attending guests, whose organisation and participation combined to create an event which was worth far more than the sum of its parts.

「二零零七年香港電腦學會春節晚會」於二零零七年三月十六日假澳門賽馬會金皇朝海鮮酒家圓滿舉行，當晚晚會座無虛席，吸引了超過二百六十位業界專才，包括友好團體代表，香港電腦學會理事會成員，院士及學會會員蒞臨，迎接豬年的來臨，令晚會生色不少。

香港電腦學會會長李惠光先生及副會長朱焯麟先生為晚會揭開序幕，歡迎各位嘉賓。晚會當晚節目精彩豐富，除了賞心悅目的舞蹈表演外，著名歌手扣人心弦的歌聲配合現場樂隊的演奏，更為晚會錦上添花，讓嘉賓在享用佳餚之餘，亦同時極盡視聽之娛，令晚會圓滿結束。

是次晚會讓資訊科技業業界在舒適輕鬆的環境下，互相交流業界最新資訊。晚會順利圓滿地進行，實是二零零七年香港電腦學會的一大聯誼盛事。

學會謹在此向晚會籌委會及出席嘉賓致以衷心謝意，感謝他們為籌備晚會而作出的支持及協助，使晚會得以順利進行。

• Professional Development and Training 專業發展及培訓

Introduction

It is no doubt that the major milestone in 2007 was the foundation of the Hong Kong Institute for IT Professional Certification (HKITPC) with the aims to maintain and promote the profession's expertise, to inspire ICT professionals' personal development and ultimately to foster the Hong Kong ICT industry's development and competitiveness.

Entering 2008, HKCS will continue to play a leading role in the professional development and training for the ICT professionals in Hong Kong. We plan to further enhance the positive role in the professional development of Hong Kong's ICT professionals through proactively supporting our members and co-ordinating professional development programmes.

簡介

二零零七年度中最為重要的里程碑無疑是「香港資訊科技專業人員認證」計劃的成立，致力維持並提升業界專業水平，同時鼓勵資訊及通訊科技專才個人發展，以達助長香港資訊及通訊科技界的發展和競爭力這最終目標。

邁進二零零八年，香港電腦學會將一如以往，為本港同業肩負起專業發展及培訓領域的領導角色。我們計畫透過積極協助會員及協調各專業發展計劃方案，進一步確立我們在香港資訊及通訊科技專業發展中的正面角色。

The Hong Kong Institute for IT Professional Certification
香港資訊科技專業人員認證

In October 2005, with funding support from the HKSAR Government, the Hong Kong Computer Society undertook the project to establish the IT Professional Certification System and IT Manpower Roster Feasibility Study (ITPCRS) which generated a number of significant accomplishments. The project outcomes brought predominance for the further development of a Hong Kong-based certification program as a sustainable scheme.

The ITPCRS project has successfully developed a certification system for ICT professionals in Hong Kong, namely the Certified Professional of IT (CPIT) Scheme. The Scheme's degree of market-orientation and comprehensiveness were assured as it was developed with an industry-wide consultation, involving approximately 50 professional and trade organisations. As a result of the consultation, an industry-led governance structure, including a Board of Governance (BoG) and a Certification Board (CB) were founded in 2006 to oversee the Scheme's operation.

Under the Scheme three initial and senior professional titles were launched:

CPIT (Project Director), CPIT (System's Architect) and CPIT (Quality Assurance Manager). The scheme generated a positive result with an overwhelming response of over 100 relevant applications from interested IT practitioners for the first intake. By early 2008 close to 50 professionals had been accredited as CPITs.

With the outcome of the professional certification scheme demonstrating a solid foundation and appreciation of an ICT certification system in Hong Kong, two major initiatives have already been launched in 2008.

於二零零五年十月，香港電腦學會在香港特區政府資助下，展開了香港資訊科技業一專業人員資格認証及人力資源名冊研究項目(ITPCRS)工作，創下多項成就，為首個以香港為基地的資訊及通訊科技專業認證計劃的持續發展帶來優勢。

ITPCRS 成功創建了一個專為香港資訊及通訊科技專才而設的認證機制，命名為Certified Professional of IT (CPIT)計劃。經廣泛業界咨詢以及逾五十個專業機構和商會的積極參與，此認證計劃的市場導向性和完備性均獲得保證。咨詢結果衍生了由業界領導之管理架構，包括於二零零六年成立的監理委員會和認證委員會，專責監控此計劃之運作。

此認證計劃在首階段推出了三個高級職銜，即資訊科技項目管理總監 [CPIT (Project Director]、資訊科技系統架構師 [CPIT (System's Architect]、和資訊科技質量保證經理 [CPIT (Quality Assurance Manager]。此認證計劃贏得了資訊科技從業員的關注，反應熱烈，在首輪申請期共接獲過百份申請書。截至二零零八年初，共有五十名專才已獲認可為CPITs。

• Professional Development and Training 專業發展及培訓

Firstly, with an additional funding subsidy to the HKCS from the HKSAR Government, a new project is underway to develop an examination-based certification framework for 3 new credentials targeting at the general level. The new credentials under consideration are:

- Associate Project Manager [CPIT(APM)]
- Business Analyst - Systems [CPIT (BA)]
- Information Security Officer [CPIT(InfoSec)]

Secondly, with initial funding support by the HKCS, the Hong Kong Institute for IT Professional Certification has been formed as a permanent institution to implement and sustain the operation of the certification scheme of the existing and future professional titles. With the HKCS as the initial funding and subscribing organisation of the Institute, plan has been put forward to invite other relevant professional bodies to participant as shareholders in the Institute. This plan will ensure industry-wide and professional representation which will dramatically improve the quality of programmes offered by the Institute. A full time Secretary General of the Institute is being engaged to oversee its day-to-day operations.

認證計劃的成果顯示了業界贊同在港設立認證計劃和其穩固基礎，因而孕育了兩項重大進展。

首先，在成功獲取香港特區政府的額外資助下，香港電腦學會正著手開發三個以考試為認證標準的全新認證資格，以擴展其服務至普遍從業員。被考慮的新職銜包括：

- 副項目經理 [CPIT (Associate Project Manager]
- 業務分析員 [CPIT (Business Analyst]
- 資訊保安主任 [CPIT (Information Security Officer]

此外，在香港電腦學會提供初期資金的支持下，「香港資訊科技專業人員認證」已成為一永久專業認證機構，負責實行和維持現有以及未來認證計劃之運作。籍著香港電腦學會的資助加上各業界的捐助，透過邀請相關專業團體成為認證機構股東的概念，這將保證認證機構的業界代表性和專業性，大大改善其認證服務質素。一名全職秘書長亦即將投入服務，監督認證機構之日常運作。

Special Interest Divisions (SIDs) 專題分部

Introduction

The Special Interest Divisions (SIDs) of the HKCS are the backbone of the Society, as they provide specialised knowledge and information for specific areas of interest for the ICT industry.

In 2007, a number of new SIDs were established, to deal with newly emerging areas of importance for the ICT industry. These included the CIO Board and the Business Intelligence SID (BISID) and Health IT SID (HITSID).

Other established SIDs continued to organise topical events, giving HKCS members great opportunities to enhance their roles in the Hong Kong ICT industry.

The BISID charters to enhance and bridge businesses via applied technology and information intelligence.

EBSID - E-Business SID

EBSID aims to promote the uses and development of electronic commerce technologies and applications in Hong Kong and to provide a forum for the exchange of information and experience in the area of Electronic Business technologies and applications and information management.

ETSID - Emerging Technologies SID

ETSID embraces the development of Digital Arts and Entertainment SIG, Enterprise Architecture SIG and the Open Source and Open Technologies SIG.

HITSID - Health IT SID

HITSID focuses on developing health IT standards, policies and legislation as well as to influence policy makers to ensure the effective application of ICT for the benefit of healthcare development of our community.

ISSID - Information Security SID

ISSID provides a forum for sharing practical knowledge and experience relating to security issues such as information security governance, ISMS, computer forensics, business continuity planning and risk management.

Special Interest Divisions' Report 專題分部報告

Chief Information Officer Board (CIOB)
資訊總監分部

A new division of the Society, the HKCS CIO (Chief Information Officer) Board was officially established on the 20th of June 2007. The idea was conceptualised by 7 founding members all of whom hold positions as Chief Information Officers or Heads of Information Technology (HoITs) in prominent Hong Kong companies.

The CIO Board is a group focused on sharing information and best practices between CIOs. Membership is restricted in order to ensure the quality and relevance of members' submissions. The Board aims to encourage members to learn from each other through round-table discussions and open best practice sharing.

The CIO Board also plans to organise seminars, surveys and study groups to research and consolidate the volume of knowledge each member brings to the group. It addresses a wide range of topics faced by CIOs and IT Management.

The primary objectives of the new division are to provide a platform for (CIOs/HoITs) to share insights, views, issues and experiences amongst themselves. It also aims to enhance the professionalism and competency of CIOs and HoITs in Hong Kong. Furthermore, to collect common views on matters of common interests related to ICT and to consolidate such views and submit them to relevant parties, to establish a knowledge-base on best practices of CIO and ICT management and to contribute to the training and development of senior ICT managers in Hong Kong. Business Intelligence Special Interest Division (BISID)
商務智能分部

Business Intelligence was ranked as the top CIO priority in the "Gartner CIO Agenda 2007 - Top CIO Priorities" survey. IDC predicts a US$670 million BI and BPM market in Asia Pacific (excluding Japan) by 2010 and expects the market to remain on the fast growth track with a 5-year CAGR of 12.9%. In 2007, the top three independent Business Intelligence software vendors were acquired by the top three software giants in the world. "Competing on Analytics," one of the best selling business books in 2007 written by Thomas Davenport and published by the Harvard Business School, has gained great attention from millions of business executives around the world on how strategic and critical Business Intelligence and Analytics is in today's global competition. All these facts are telling us that Business Intelligence has evolved into a mainstream technology as well as a critical business strategy.

據「Gartner資訊科技總監議程二零零七年 – 資訊科技總監優先事務調查」，商務智能深受資訊科技總監的高度重視。國際數據資訊亦預測至二零一零年年亞洲太平洋地區(不包括日本)的商務智能及商業流程管理市場總值將達6.7億美元，並預計會持續以每五年以12.9%複合增長率快速增長。在二零零七年，三家尖子獨立商務智能軟件商被三家全球頂尖的軟件企業收購。由戴文坡，哈瑞斯著作，哈佛管理學院出版的暢銷商業書藉《魔鬼都在數據裡》，亦廣獲上百萬名商業行政人員的青睞，引起各界注視策略性和批判性商務智能在環球競爭中的角色。這些現象正向我們展示商務智能已成為主流科技和重要商業策略之一。

Health IT Special Interest Division (HITSID)
醫療信息科技分部

HITSID was established with the objective of promoting professional development in the areas of health informatics and IT applications in the healthcare sector. Through our activities, we highlight the growing importance and opportunities in health IT development in Hong Kong, as our society faces an aging population and the pressure of a sustainable healthcare delivery platform for everyone.

Two major events were organised in the past year to create better linkage between the IT professionals in the public healthcare provider sector with the private provider sector, as well as the ICT industry as a whole. On the 24th of September 2007, a Digital Agenda Forum on "Health IT Opportunities in Hong Kong" was organised, with Mr. Shane Solomon, Chief Executive of the Hong Kong Hospital Authority and Mr. Howard Dickson, Government Chief Information Officer, as the keynote speakers. Co-organisers included the Legislative Councillor Mr. Sin Chung-Kai, Hong Kong Information Technology Federation and Hong Kong Council of Social Service. The event was well attended by over 150 people.

On the 30th of January 2008, a demonstration of the Clinical Management System (CMS) of the Hospital Authority was organised with the Hong Kong Society of Medical Informatics. This was the first large-scale demonstration and presentation on the details of HA's CMS for an industry audience. The event was very successful with over 200 people attending.

In the coming year, the HITSID will organise more forums and activities including our first annual flagship conference and visits to various health IT installations in Hong Kong. A key focus will be on the sustainable development of health IT human resources, through working closely with the academic sector.

醫療信息科技分部的建立，是為了促進醫療保健界發展專業的醫療信息學和應用。我們的社會正面對人口老化問題，並急切需要一個可為全民服務的醫療服務平臺。有見及此，本分部將通過籌辦各項活動，突顯在香港發展醫療信息科技的重要性和機遇。

為使公營與私營公共衛生組織之資訊科技專員，以至與整個資訊及通訊科技界有更緊密聯繫，分部在去年舉辦了兩個重點項目。首先，在二零零七年九月二十四日，舉行了名為「醫療信息科技－契機在香港」的數碼論壇，由醫院管理局行政總裁蘇利民先生和政府資訊科技總監戴啟新先生擔任演講嘉賓。項目協辦單位包括單仲偕議員、香港資訊科技商會及香港社會服務聯會。活動共吸引超過一百五十名參加者。

其後在二零零八年一月三十日，本分部與香港醫療資訊學會合辦了醫院管理局的臨床管理系統示範會，是首個為業界人士介紹該系統細節的大型示範會。活動吸引了二百人出席，成績有目共睹。

在來年，醫療信息科技分部將在本港組織更多論壇和活動，包括分部首個年度旗艦會議和醫療設施參觀活動，而另一焦點將是通過與學術界緊密合作，成就醫療信息人力資源的持續發展。

Information Security Special Interest Division (ISSID)
資訊保安分部

2007 was another busy year for ISSID. As the opinion leader in the area of information security and governance, the Executive Committee Members of the ISSID was often interviewed by a number of media, as well as participating in public seminars and conferences. The primary objectives for these seminars and interviews were to actively promote information security awareness, the corresponding risk and control assessment and proper security protection methods. We also actively assisted the HKSAR Government and the community in developing information-security related policies and guidelines.

In 2008 and beyond, we will be working closely with other SIDs within the HKCS to encourage cross-fertilisation of ideas, synergies and linkages with fellow HKCS members and professionals in the ICT industry.

In the past year, Information Security has continued to be one of the hottest topics in the business world. This is evident in the increasing amount of media coverage on security incidents as well as record number of conferences on this subject. The recent leakage of celebrity photos fuelled much discussion on the security risks and protection of digital data. In response, the Executive Committee of the Information Security Specialist Group has organised a number of seminars and workshops to highlight areas of concern and to provide opportunities for information exchanges amongst information security professionals in Hong Kong.

資訊保安分部在二零零七年渡過了繁忙而多姿多采的一年。作為資訊保安和管理領域的意見領袖，本分部之執行委員會經常接受傳媒訪問，並多次參加公開研討會和會議。這些活動志在推廣資訊保安意識、對應風險和控制評估，以及適當的資訊保安方法。與此同時，我們亦活躍於協助香港特區政府和社區開發有關資訊保安的政策和指南。

在二零零八年以至未來，我們將與其他分部攜手合作，促進香港電腦學會會員和資訊及通訊科技界同業間之交流、協力和聯絡。

在去年，資訊保安事件於媒體報導和會議記錄出現的次數不斷增加，這充分顯示了資訊保安持續成為商界的熱門話題之一。最近疑似名人照片洩漏事件，激發了針對保安風險和數據資料防護的爭論。對此，分部的執行委員會組織了數個研討會和工作坊，力求帶出事件重點，並製造機會予資訊保安專業人員交流有關資訊。

首先，我們在二零零八年三月四日舉行了一個適時的研討會，名為「疑似名人照片洩漏事件：為什麼你和你的組織應該關心？」。在研討會上，一專家小組被邀請表達他們的看法，當中包括資訊科技功能組別立法會議員單仲偕先生。我們亦舉辦了數個電腦鑑證調查工作坊，為資深資訊保安從業員提供了實用知識。

另外，第五屆資訊保安高峰會和工作坊於二零零七年十二月三日至七日期間順利舉行。以「資訊保安之演變：歸一、循規和認證」為題，該高峰會更舉辦了數個附設工作坊，申請參加人數一度超額。高峰會確切地反映了資訊保安從業員和本分部的獨特凝聚力。分部必會在未來繼續在該高峰會扮演舉足輕重的角色。

A timely seminar was held on the 4th of March 2008, entitle "Recent Photo Leakage Incident - Why You and Your Organisation Should Care?" At the seminar, a panel of experts was invited to express their views, including the Honourable Sin Chung-Kai, Legislative Councillor (ITFC). We also held several sold-out forensic investigation workshops which provided hands-on practical knowledge for the more sophisticated security practitioners.

The fifth annual Information Security Summit and Workshops 2007 was successfully held from the 3rd - 7th of December. With the theme of "Information Security Evolution - Convergence, Compliance and Certification," this Summit was supplemented by a number of sold-out workshops. This Summit truly reflected the unique bond between information security practitioners and the ISSID will definitely continue to play a pivotal role in future Summits.

As always, we look forward to serving the Society's members and the community in the coming year, by continuing to offer high quality seminars, workshops and social activities. One of our priorities in 2008 is to provide more opportunities for security practitioners to expand their social network, hence we have appointed Mr. Cecil Siu as our Social Activities Director. We encourage all HKCS members to watch out for our upcoming events. If there are any suggestions, special seminar topics or other ideas to create a friendly and sharing community for information security professionals, please contact our Programme Director, Mr. To Ka-lun, or any of our Executive Committee Members.

Finally, we would like to thank the Executive Committee Members and all the guest speakers for their whole-hearted support over the last year. We cannot do our job with such ease without them. With your continued support, 2008 will surely be another successful year to come.

一如既往，我們盼望在來年通過繼續提供高質素研討會、工作坊和社交活動，服務會員以及社會大眾。 在二零零八年，我們將優先為資訊保安同業提供更多擴闊他們的社會網絡之機會。為此，分部委任了蕭耀鳴先生為社區活動總監。我們鼓勵所有香港電腦學會會員留意我們未來活動。若有任何建議，如研討會主題或如何為資訊保安專業人士創造一個友好和共享的社群，請即與我們的節目總監杜嘉倫先生或任何一位執行委員聯絡。

最後，分部十分感謝在過去一年間執行委員和所有演講嘉賓的誠心支持，我們才得以順利完成各項工作。我們深信有你們繼續支持，二零零八年定必是另一豐收年。

Quality Management Special Interest Division (QMSID)
質量管理分部

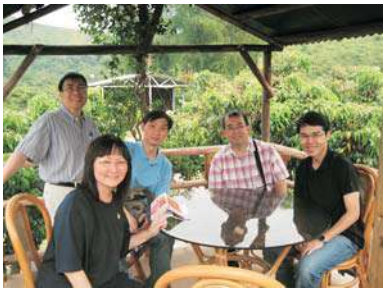
QMSID aims to provide a forum for exploring all areas of ICT quality management; to advance disciplined ICT management and system engineering practices, ICT process improvement, system quality improvement and effective project management; and to arrange networking activities, seminars, visits and the publishing of materials as a means to achieve recognition of excellence, mutual support and a higher level of professional understanding and skills.

The Chairperson of QMSID, Dr. Hareton Leung was invited to attend the China System and Software Process Improvement (CSSPI) Annual Meeting 2007 in Beijing and delivered an opening speech in November.

In late November, QMSID signed an MOU with China Software Process Improvement Network (CSPIN) on many areas of collaboration, including China Software Benchmarking Standards Group project, China Japan Korea Alliance on Software Metrics, CSSPI Annual Meeting, City Salon establishment and industry survey and analysis of system improvement and software process. This MOU will give HKSPIN and CSPIN a greater opportunity to collaborate a great number of relevant areas, which will in turn benefit HKCS members.

In the coming year, we plan to continue our focus on sharing knowledge and lessons learned by organising speakers' meetings and publishing regular e-newsletters. We will work with CSPIN to identify worthwhile projects that are beneficial to our local ICT community and our members.

Our success relies on the strong support from our members and friends. We continue to count on your active participation and valuable feedback.



質量管理分部目的旨在提供一個平台，對資訊及通訊科技質量管理作深入探討；進一步實踐完善的資訊及通訊科技和系統工程管理及改善資訊及通訊科技的程序處理；提升系統質素及項目管理的效能；以及策劃聯繫活動、研討會、探訪和出版有關刊物，以達至卓越表現的認可、業界的支持以及更高的專業認同和技術。

質量管理分部的主席梁金能博士於本年十一月獲邀出席於北京舉行的中國系統與軟件過程改進年會，並在會上致開幕詞。

本年十一月底，質量管理分部跟中國軟件行業協會系統與軟件過程改進分會簽署備忘錄，達成多方面的合作協議，包括中國軟件過程基準工程建設計劃、中日韓協會間軟件度量聯盟、中國系統與軟件過程改進年會、城市沙龍群建設之成立，以及行業調查和系統改善及軟件過程之分析。這個備忘錄能給予香港軟件過程改善專題小組和中國軟件行業協會系統與軟件過程改進分會更大的合作空間，為香港電腦學會帶來更大的益處。

未來一年，我們將繼續專注於分享在籌辦演講者會議及發行定期電子通訊中所汲取的知識與教訓。我們會與中國軟件行業協會系統與軟件過程改進分會共同發展更多具價值、有助於本地資訊及通訊科技成群體及本會成員的項目。

我們今日的成果成有賴各會員及伙伴的支持，大家的積極參與及寶貴意見將繼續為本會的重要基石。

Sub-Division: Hong Kong Software Process Improvement Network (HKSPIN)
質量管理分部的研討小組成員:香港軟件過程改善專題小組

Through 2007 HKSPIN continued to schedule events for HKCS members, giving them opportunities to learn from industry leaders in the field of Software Process Improvement. In March 2007, HKSPIN organised a speaker's meeting with Mr. Jerry Durant, talking on "Effective Methods for Test Automation of a World-class Software Testing Organisation." Mr. Durant's lecture was highly informative and of great value to those who attended.

Another key event during 2007 was when the vice chair of the QMSID Mr. William Kwan, gave an interview with Computerworld Hong Kong in August on "QA pros enforce consistency." It was a great honour for such a prestigious, well known magazine to give us an opportunity to promote this important topic.

We would like to extend our thanks to our guest speaker Mr. Durant and to Computerworld Hong Kong for their consideration in 2007. We also look forward to the ongoing support from HKCS members.

PMSG had an extremely busy 2007, with the organisation of numerous events, aimed at promoting Project Management.

In September, we organised a speaker's meeting with Mr. William Yung talking about "Performance Improvement, through Benefits Management - Start Right, Finish Right." This was an extremely informative session, with members gaining a great deal from the topical discussion.

Shortly after the speaker's meeting, another successful event was held. A Wine Tasting Party was co-organised with IBM User Group on the 18th of September. This event gave members an opportunity to expand their personal network of contacts in a friendly, social environment.

QMSID and PMSG organised a Family Fun Day on the 13th of October, 2007, visiting an organic farm in Fan Ling. The event was a great success and gave attendees a great chance to experience life on an organic farm in Hong Kong.

Both HKSPIN and PMSG have expanded electronic communication with our members. The first HKSPIN electronic newsletter was published in August 2007 and the first PMSG e-newsletter in September 2007.

另外一個成功的活動亦僅隨演講會，於九月十三日舉行。是次活動是與IBM 用戶協會合辦的試酒派對，給予各會員機會，在友善的環境下擴闊個人的交際網絡。

香港軟件過程改善專題小組和項目管理研討小組於二零零七年十月十三日一同舉辦了名為「家庭同樂日」的活動，探訪位於粉嶺的農場。是次活動很成功，讓會員能在有機農場作生活體驗。

香港軟件過程改善專題小組和項目管理研討小組更一同擴展了跟會員的電子聯繫。它們的第一封電子通訊分別於二零零七年八月及九月發行。

電子商務需求永遠存在

(本文摘錄自電子商務專家組(EBSID)楊偉亮生先著作《當B2B泡沫消散之後》一書)

從市場學的角度來看，電子商務應該是不斷改變、不斷革新的事物。從表面來看，所謂舊的技術會被新的技術淘汰。然而，具有真正價值的電子商務技術方案在市場上仍然不斷被推廣和實施。

以高科技行業B2B標準RosettaNet為例，使用的企業數量一直有所增加，而企業對RosettaNet的外包持更開放的態度；例如環球產品數據同步GDSN，儘管在部份亞洲國家和地區，距離普及化還有一段漫長的路，但企業已瞭解到數據清洗及主數據管理(Master Data Management)對GDSN的重要性，為日後GDSN的推廣打下了堅固的基礎；又例如電子採購，專門提供電子採購服務的Procuri亮麗的業績引來Ariba的垂涎，就說明瞭電子採購仍大有市場。

還有應用集成 (Enterprise Application Integration) 和B2B外包，前者保障了防火牆內的應用系統得以無縫連接；後者協助企業導入貿易夥伴，兩者今天依然是CIO們不可忽視的範疇。例如EDI，多年來一直有專家預言EDI會被淘汰，但EDI的使用量持續上升，只不過傳送EDI的通訊網絡由增值網或專線轉移到互聯網而已。

過於複雜不利推廣

電子商務有別於一般資訊科技的地方，在於它的應用對象包括非I.T.背景的用戶。因此成功推廣的關鍵在於用戶是否認同電子商務的價值及明白使用的方法。過於複雜的技術及標準往往對電子商務的推廣有負面的影響。

RosettaNet是一個很好的例子，這個高科技行業的標準強調其在與貿易夥伴交換資訊時在公共流程管理上的優越性。然而往往只有具規模的企業與同樣具規模的貿易夥伴交易時才體現到這種優勢，對於其他中小型企業來說進入的門檻沒有比之前的技術如EDI降低。後來RosettaNet不得不提出可相容其他通訊協議的MMS (Multiple Messaging Service) 及供中小企可通過瀏覽器操作的RAE (RosettaNet Automated Enablment) 以擴大用戶群。

跑在RosettaNet後面的是GDSN，對中小企來說，要瞭解GDSN內153項產品屬性分類及產品資料同步的流程是頗為吃力的事。因此GDSN要得以廣泛採用，必然要推出更簡單及友好的方案。

反過來說，價格廉宜、使用方便而且節宜成本的方案可以輕易地打入市場。EDIINT中的AS2便是一個很好的例子，最簡單的AS2通訊軟件只需區區三數千元，而且安裝容易，因此可以在短時間內打入市場，蠶食EDI增值網的市場，當然AS2只是一種互聯網上的通訊協議而並非一個完整的B2B解決方案。

全面導入才能產生雙贏

企業使用的方案建基於最新的電子商務技術與否並非最關鍵的問題，最重要是作為中心站 (Hub) 的企業能否達致與所有週邊貿易夥伴 (Spokes) 進行連結。假如答案是否定的話，這意味著中心站無法掌握到整個供應鏈體系的各項資訊流通。

即使中心站能夠與所有貿易夥伴集成，但假若中心站要建立並維護各式各樣的集成方法和渠道來達致這個目標，那無疑是事倍功半。

因此，常見的中心站策略有兩種：一種是使用建議甚至強制性 (mandatory) 手段，逼使貿易夥伴使用同樣的通訊方式。這種方法在買方 (Buy Side) 比較有效，因為供應商為了做成生意多會服膺，但在賣方 (Sell Side) 卻較難推行。

另一種策略是使用第三方B2B服務平台作為仲介的環境進行翻譯及調解 (mediation)，如此一來，買賣雙方都無須遷就對方的通訊和集成方式，只須與B2B服務平台作一對一的連結便可以了。

使用第三方B2B服務平台還要考慮付費的問題，因為哪一方付費會影響到導入貿易夥伴的效率。一般來說中心站付費 (Hub Pay) 的導入效率較高，因為貿易夥伴不能以增加成本為籍口而推搪。如要貿易夥伴付費 (Spoke Pay) 甚至付全費 (Mixed Pay)，則導入效率必然受到影響。

若果中心站既使用強制性手段，同時亦便用第三方B2B平台的服務，那麼能夠完全集成整個供應導體系的成功率便非常高。

電子商務沒有免費午餐

雖然B2B服務市場競爭激烈，但不斷有新的服務商加入，足見這個市場確有令人憧憬的地方。然而服務商或用戶必須認清所憧憬的是真實的目標還是一廂情願的幻想。

B2B服務必須能夠為買賣雙方提供有實際用途的增值服務，而這種服務是買賣雙方無法在更高的成本效益下能夠達成的。因此資源共用以達至規模經濟便是B2B服務成功的關鍵。用戶要享受這些方案的成本效益，便要接受方案在資源共用的前題下，可根據個別需求而作出的改造的限制。電子商務服務是沒有免費午餐的，能夠以過於低廉的收費或／及可作出大規模改造的服務商，很難可以維持盈利而提供長期的服務。因此無論B2B服務商用的是納稅人的錢或創投基金的錢，也不應單純以價格作為惟一競爭的工具。

在用戶端來說，要衡量的也不單是B2B服務商的價格，而必須包括服務商的服務水平和實施能力與及對服務及技術創新的承諾。

對於那些對B2B外包代管和使用國際標準有所保留的企業來說，通常它們的論據是電子商務是它們的競爭優勢 (Competitive Edge)，因此必須保持獨特性 (Differentiation) 和獨立性 (Independency)。這種看法其實有所偏差，因為電子商務只是加強企業的供應鏈體系的工具和手段，而並非企業要與對手競爭的本業。企業的競爭優勢應該建立於本業，而這個本業包括能對市場變化作出快速反應的供應鏈體系，電子商務只是促成這種反應能力的工具而已。反不反應或如何反應，當然是由企業本自決定。因此在考慮如何實施電子商務時，服務水平和成本效益應是首要考慮，然後才決定內管或外包。當然在決定外包時，數據資料的保安也是重要的考慮。

從EDI走到IaaS

「B2B電子商務」一詞，應該起源於科網年代。儘管這個名稱沒有一個統一的定義，但大家不反對它包括企業對企業有關業務上的資訊交換就是了。這種技術包括了科網年代之前已經出現了的EDI（甚或更早期的電報），然後大家覺得EDI標準的文檔除了增值網外也應該可以應用於互聯網上，於是出現了EDIINT了這個標準。沒有了帶寬限制的互聯網，當然也容許包含了數據標籤的XML檔，因此，XML是否可以取代EDI成為了B2B的研究焦點。今天大家在大談SOA和SaaS，B2B也不可能只包括平面的文檔交換，它必須包括能與遠程應用集成的Web Services，同時可以按需(On-Demand) 使用。因此這種以全新面貌出現的IaaS (Integration-as-a-Service)，才能與SaaS互相匹配。

但無論名稱怎麼改變，技術怎樣革新，只要能夠為買賣雙方提供有成本效益的增值服務，B2B電子商務的需求還是真真實實地存在的。

HKCS's Response to the Consultation Paper
諮詢文件回應 – 優質資訊科技專業服務常備承辦協議

In December, the Industry Development and Policy Committee (IDPC) submitted a response to the Government's Consultation on the Standing Offer Agreement for Quality Professional Services (SQA-QPS). While the paper agrees that the current agreement is a big improvement when compared to the past, it also outlines a number of key areas where more can be done. These include the issues on quality consideration of suppliers and unlimited liability. For more in depth information, please visit: *http://www.hkcs.org.hk/en_hk/misc/journal_paper.asp.*

IDPC intends to issue another paper in 2008, the subject of which is yet to be announced. Possible areas which may be addressed include the latest views on China/Hong Kong ICT industry development and the upcoming Legco election. With regards to the Legco election, HKCS intends to organise a forum for the ICT constituency candidates to meet with the industry members, to give them an opportunity to express their agenda and if possible, give the ICT industry an opportunity to absorb more detailed information about their proposed plans.

IDPC does not have a fixed committee membership. It operates on a 'need to seek help basis,' and therefore involves different people with varying expertise, ensuring flexibility and a significant impact on areas in which we are involved, but avoiding the necessity of regular meetings.

於二零零七年十二月，香港電腦學會的業界發展及政策委員會就「優質資訊科技專業服務常備承辦協議」的諮詢文件，向香港政府呈交建議書。建議書提出現行協議固然比舊有協議更見成效，但在多個重要範疇上仍有很大的進步空間。建議書倡議範圍主要環繞資訊科技供應商的品質標準及其無限責任性。有關建議書詳情請瀏覽*http://www.hkcs.org.hk/en_hk/misc/journal_paper.asp* 網站。

學會的業界發展及政策委員會亦計劃於二零零八年，向政府就業界發展提出建議，詳情將容後公佈。經過委員會初步構思，建議書將就中港兩地資訊及通訊科技發展及即將舉行的立法會選舉，提出學會所思所想。就立法會選舉方面，學會將提出資訊科技界候選人會見業界代表的可行性，讓候選人解釋政綱，並提供機會讓業界充份理解候選人所提出的理念。

業界發展及政策委員會為非常任委員制，並無固定會議時間表。委員會就業界發展的不同專業領域上，向有關專業人士尋求意見，以期達到集思廣益之效。

Our responsibility is to express an opinion on these financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In marking those risk assessments, the auditor considers internal control relevant to the entity's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the council members, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the financial statements give a true and fair view of the state of the Society's affairs as at 31st December, 2007 and of the surplus and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards.

Li Tang Chen & Co.
