Mr Philip Wong
Chief Architect, Cisco Systems (HK) Ltd

Philip is a Chief Architect in Cisco HK, responsible for driving Multi-Cloud strategy and solutions. Philip joined Cisco HK as Customer Solution Architect in 2006. In 2009, Philip represented Cisco in presenting and demonstrating many custom-made innovative Retail solutions in Retail Asia Expo held in Hong Kong; and was interviewed by TVB Pearl Money Magazine. In 2009 Philip led a team in a joint effort with partners to construct an active-active data center platform spanned across 3 geographically-diverse locations for various innovative demonstrations. In 2012, Philip joined Cisco Data Center Team Greater China as an Architect, specializing in Cisco Data Center Solutions.
